To find the correct size...

Note: You should check online to determine the availability of your size. Not all sizes are offered for certain styles.

1. Select one of your existing rings that properly fits the intended finger.
2. Match a circle with the inside of a ring (a band works best for measuring).

If your ring falls between two sizes, this indicates a half size.

Check to see if half sizes are available for the ring you are ordering. If not, order the larger size.
